Friday 06 Dec.	Parent training Home from 10.00-12.00 for parents group 7

NEW DIRECTOR AFTER MERGE SIRIUS FOUNDATION AND SPECIAL EDUCATION

Over the past few months, the Special Education Foundation and the Sirius Foundation have worked hard to pave the way for the merge on 1 January 2020. By joining forces together in Amsterdam South East it is even better possible to provide the children with childcare, youth care and welfare, this is exactly what education needs. With a lot of energy, we continue to work together on powerful education in every neighborhood!

We are proud to announce that as of January 1, 2020 we will be the first cooperative board in Amsterdam where public and special primary schools come under one board, leaving room for the individual identities of the various schools. This is a unique event for Amsterdam.

The director of the new merging organization will be Harry Dobbelaar, the current director of Foundation Speciaalwijs. Following a positive recommendation from the Appointment Advisory Committee, both Supervisory Boards and Joint Representative Advisory Councils have confidently approved his appointment.

The name of the merger organization will be announced to our employees in early January 2020. You will naturally hear more about this soon afterwards. We look forward to working with our partners on better education from January 2020 onwards!

TREE LESSON THEME PLANTS

Last week the pupils from groups 4 to 8 looked at trees with the guidance of a nature guide. The students have collected leaves and picked mushrooms, they also went looking for tree fruits. Back in class, the students looked up the names of the found objects by means of a search card. It has been a succesful day!
Thanks for all the parents who came with us as a guide!

LIS TO THE MOON

The Preschool children are going to work on a new theme Lis to the moon. Within this theme they learn everything about the space. They make their own rocket, planets, move as if they are on the moon and sing songs about space.

The children play in the rocket corner. They set up a rocket themselves. What do you need in space? An astronaut suit, food and drinks ... Oh no, they are not completely ready for the journey yet... Can you help us? We are still looking for an Astronaut suit, a helmet and something else for the moon. Do you know anything else for space?

YOUTH WORKERS AT SCHOOL

During the meetings of the student council it became clear that our students need extra curricular activities. The community school only has a limited number of places, so it has been agreed in collaboration with the municipality that youth workers are present at school between 13.00 and 17.00 on Mondays and Fridays.

These youth workers will organize various activities at and around the school. The student council, in consultation with groups 5 to 8, have selected a number of activities that they would like to have at school. A top 10 was made and handed over to the director on paper.

Miss Els has worked to provide the students with their wishes and needs. Children do not have to register and can come in at any time in consultation with parents.

SINTERKLAAS!

Saint Nicholas (Sinterklaas) is back in the country and that is being celebrated again. This year Saint Nicholas has no Petes but all of our students are little helpers, how fun is that!

The preschoolers start this week with the preparation of the food, namely .. baking Pepernoten!! They do this together with the teacher and parents in the classroom. They can also put their shoes out ... have they been naughty or nice...?

5 December we're all ready at the schoolyard to welcome Saint Nicholas between **08.30 and 09.00**. Afterwards groups 1 to 4/5b go to the aula, where they hold a performance for Saint Nicholas. Then Saint Nicholas gives gifts in the classrooms.

The students from the higher grades pulled straws and will be making a nice surprise. After welcoming Saint Nicholas, they have their own program in class.

With delicious pepernoten, speculaas, reading poems and of course unwrapping surprises

As an ending we have a disco with groups 1 to 4/5b from **13.00 to 14.00** downstairs in the aula

BLAUWE BIJTJES

Dear Parents/Guardians,

Monday, November 18, there was an interesting parent meeting about Safe Traffic. While enjoying coffee and tea, an explanation was given by Tjallie Smakman of Traffic Square (verkeersplein) Amsterdam. Together with the parents it was discussed what you can do as a parent to guide your child safely through the busy Amsterdam traffic. We learned a lot.

Join us next time!

Saint Nicholas is here!

Thursday, December 5, we celebrate Sinterklaas (Saint Nicholas). Together with the school we wait for Saint Nicholas on the schoolyard. Further information will follow via a letter and / or group app.

Kind regards,
Teachers of de Blauwe bij 1/2

PARENT CONTRIBUTION AND CITY PASS

The new year is coming and the parent council must reach the money from the budget soon. Here you see an overview of the payments per class. Our goal is to receive all payments by the beginning of March. This way we can pay for the school trip and camp on time.

The parent contribution has been paid for 32.2%!

Can't pay the amount in one go?
A payment arrangement is possible!
For more information please contact
Ms Anissa.

WE COMMUNICATE THROUGH FIEP

We think our students are important, you do too right?
Therefore do not miss any information and activate your FIEP account!

Step 1: Download the Fiep app on your phone through the App store (iPhone) or Google Play (Android).

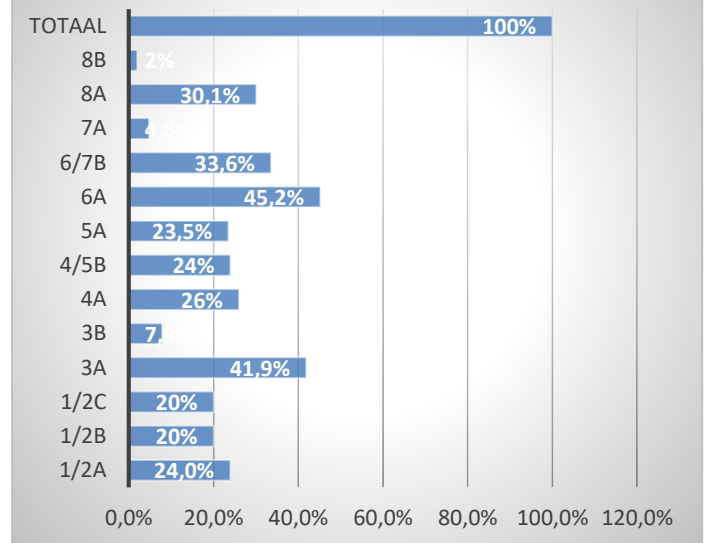

Step 2: Make an account in Fiep (register) and activate it through e-mail

Step 3: Activate Fiep with the special code you received through letter or mail.

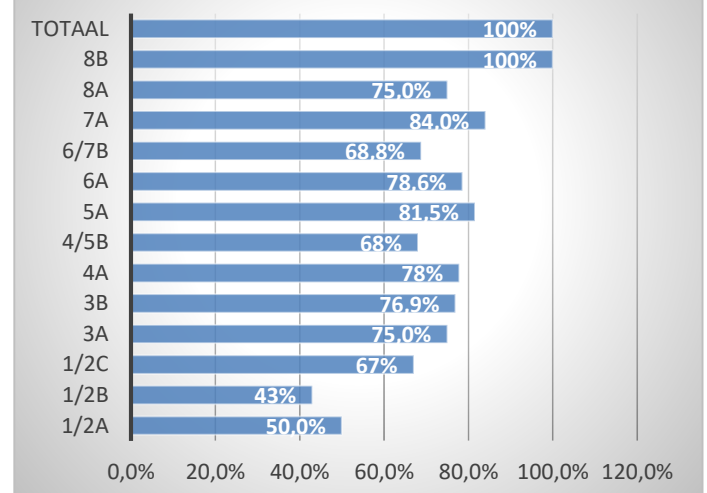

*You do not have a code yet?
Ask Ms Anissa!*

195 parents have an account!

Parent contribution 2019-2020

Activated FIEP accounts

Group 8B is the first class where all parents have a FIEP account.
As a reward they may do an activity of their choice.
Which group follows for a reward?
