Monday 08 June	Further information about the potential opening follows. School photographer at school Day 2.

TRAFFIC AROUND SCHOOL

It has been very unsafe for the school in recent weeks. This was because many motorists at the intersection in front of the school did not follow the traffic rules.

The road to school is currently one-way, so you should not turn from the road you came to, there is an exit signposted from the Henriette Roland Holsthuis car park. You can park in the parking lot of the Henriette Roland Holsthuis, or in the parking spaces. Not on the sidewalk. At the moment the municipality is busy with work around the school. Starting next week, work will be done on the roadway and footpaths for the school. That entire section will be cordoned off and there will be no more cars there

The municipality ensures that there is no construction traffic from the project in front of the school between 7.45-8.45 and 13.30-14.30. Construction fences are placed around the work area. The school is in consultation with the municipality to get traffic controllers in front of the schoolyard between these hours. The measures will continue until the summer holidays.

SCHOOL PHOTOGRAPHER

The school photographer will come to school on **Friday 5 June!** We are happy that our students can be photographed despite the corona virus happening. Of course, we do this carefully and consider the regulations according to the RIVM.

The B group will be photographed first, on this day the portrait photos and sibling pictures will be taken.

Hopefully, the school will open completely on **Monday June 8**, on this day the other children will take a portrait photo, sibling pictures and the group photos will be taken.

IMPORTANT: the children who will be photographed on Friday will be photographed again on Monday for a group photo.

Depending on the weather forecast, the photos may be taken outside. Like every year, our Blauwe bijtjes will be photographed first, followed by the lower and then the higher groups. The portrait and group photos are taken during school hours, the sibling photo sessions can run until 15.00h. You will receive more information about this.

Our parent council will organize the day as usual. They also adhere to the precautions of RIVM and are allowed to enter the schoolyard on exception.

CABBAGE WHITES AND CATERPILLARS AT SCHOOL

Within the context of the theme "Curious" and "Look around you" we have caterpillars (cabbage whites) at school. Our students can visit in small groups to see where the butterfly comes from! How nice is that! The process from caterpillar, cocoon to a real butterfly.

Once the caterpillars are butterflies, we release them on the schoolyard!

SCHOOL SWIMMING

School swimming will start partially again on Monday 25 May.

This is entirely on a voluntary basis and on the days when your child does not go to school.

The pool starts with children from level 3 up to and including the A-lane and children who (almost) finished the lessons.

As a parent you will receive an invitation from the swimming pool with the rules and agreements that apply. You also bring and pick up your child yourself.

Participation is not mandatory.

ALL-IN-1 THEMA SPORTS

Monday May 25 and Tuesday May 26 we have a sporty opening at school at 09:45. The teachers and students come to school in sporty clothes. This is for groups 4-8.

Below a short summary of what the children will be doing this week.

Individual sports are sports that you do alone, such as horse back riding, tennis, and athletics.

In a team sport you play with teams, such as football, hockey, and volleyball.

In a mind sport you use your mind, like you do in chess and in puzzles.

The purpose of a sport is to win from your opponent.

Top athletes must have a lot of talent and be real go-getters.

Top athletes train hard for years and have to live a healthy life.

Rules apply to every competitive sport. Otherwise you will not have a fair match. Those who don't follow the rules will be punished.

PR means: personal record. Your best performance yet.

THE FIRST TWO WEEKS AT SCHOOL.

We are now two weeks in since the school reopened. Of course, we were a bit nervous how everything would pan out, and it took some getting used to for everyone. Our parents were also nervous to bring their children to school. We fully understand this and went into discussions with these parents.

Fortunately, these children also came back to school soon!

Looking back, we can proudly say that it went very well from day one. The children adhere neatly to the walking routes at school. The parents adhere neatly to the rules and stand in front of the fence. And our tough big brothers and sisters bring their siblings to the front door perfectly!

The atmosphere in the school is also very relaxed and pleasant. The children have missed each other, and the teachers are happy to be back at school.

It is nice to see all the happy and enthusiastic faces again.

The hygiene measures and other regulations are also very well observed. It is nice for us to be able to work with the children again at school! We are proud of our students, proud of our parents and proud of the team of the Blauwe Lijn!

The Blauwe Lijn wishes you a happy Ascension day!
