CLASS PHONE

We notice that calls are still being made to the administration with questions directed to the teachers. To keep the lines between our parents and teachers short and to make it as easy as possible for you, our groups have their own mobile phones. Do you have an announcement or question that is really addressed to the teacher? Then you can easily pass this on via WhatsApp. Is your child sick, late or does he/she have a doctor's appointment? You can also pass this on between 08.00 and 08.30 on the class telephone.

Because the attention for our students is very important, you cannot call your child's teacher during school hours. Would you rather call? Do this between 14:30 and 16:00! The teachers are happy to help!

HOMESCHOOLING

The Christmas holidays are over and the school is fully engaged in digital homeschooling. For the holidays, the students have a laptop or iPad on loan for homeschooling. We notice that some students find it difficult to concentrate on their laptop all day long. We are thinking about how we can make homeschooling more interesting. In addition to the regular subjects, we also want to program music, dance and offer bevo. In this way we hope to be able to provide a varied digital homeschooling program that keeps students motivated.

Group 8 is currently busy with the cito tests. Exceptionally, they are allowed to go to school in shifts. This is going very well.

COMPULSORY EDUCATION AND HOMESCHOOLING

The compulsory education states that children should be present (online) according to the school's schedule. Is that not possible? Then the school contacts parents to ask them what they need and what we can do. Agreements are made together. If these agreements are not complied with, we are forced to report this to compulsory education. Is your child ill? Again, you must deregister your child via your child's teacher.

We expect all students online from 9:00 to 14:15. Every student has access to the weekly task and all digital teaching materials. The extra lessons given by the SSV also continue as usual. The teachers keep track of which children are present every day.

We would like to ask you to discuss any requests for help, comments and concerns with your child's teacher. Together we stand stronger!

OPEN DAYS SECONDARY EDUCATION

During the Corona time it is not possible for the secondary schools to organize "physical" open evenings. At www.xplore.nl you will find information about the possibilities to orientate yourself towards a follow-up school for your child.

The digital open evenings for school years 21-22 are on:

- Tuesday 12 January 2021 19:00-21:00 h – open evening 1
- Wednesday 3 February 2021 19:00-21:00 h – open evening 2
- Thursday 4 March 2021 19:00-21:00 h – open evening 3

Every evening there will be four sessions every hour and half hour:

You don't have to sign up. A link will be placed on the website with which you can log in.

Check the website for the latest developments.

ALL-IN-1 GOLDEN AGE WEEK 1 AND 2

Week 1: The Golden Age (1600-1700)

The 17th century is called the Golden Age, because a lot of money was made in the Netherlands.

Mainly because of the trade. Everything was transported by ships.

The most trade was therefore in the west, near the North Sea.

The wealthy merchants lived close to their trade.

They lived in beautiful houses. The painters made portraits of the rich merchants.

So there was a lot of art. All kinds of inventions were made.

Only BC: Like the clock with the pendulum.

The telescope and microscope were also invented.

With a telescope you can see how big the universe is.

With a microscope you can see bacteria.

Week 2: The 80-year-war (1568-1648)

The Netherlands belonged to Spain in the 16th century. Almost everyone was part of the Catholic Church.

Books were printed for the first time. The people now read the Bible themselves.

They read different things than they heard from church. They rebelled against the church.

They destroyed images: the Iconoclasm. These people were called Protestants.

The king of Spain was furious. He sent General Alva to the Netherlands.

Alva had many Protestants killed and tortured. The Dutch hated the Spaniards. The watergeuzen conquered the city of Den Briel.

More and more cities were conquered from the Spaniards. Peace was signed in Münster (Germany) in 1648. The Netherlands became its own country. The war with Spain had lasted eighty years.

PARENT CONTACT

We have been so busy with and for our students that we have not considered the fact that we have not planned a contact moment with you as a parent. We can imagine that online homeschooling demands a lot from you and that you may also need a conversation with the teacher.

Together with the teachers, we are thinking about how we can be even more accessible to you. For questions, for concerns, but also just for a quick chat.

You will hear from your child's teacher when you can request a meeting or at what times the teacher is available.

voor U**

MESSAGE FROM THE PARENT COUNCIL

The parent council has bought beautiful Sinterklaas presents for 170 students.

These were paid by the school because not enough parents paid their parent contribution!
