Friday 19 Feb.	Studv dav. all students are off

Opening the school from the 8th of February

Yay! We can open again. There are a couple rules:

If your child has a cold, a cough or a fever, let your child stay at home. If there is 1 infection in the group, the whole group must quarantine for 5 days.

So if you have a cough, are snotty or have a fever, stay at home.

We will provide online lessons via google classroom.

Parents have to stay outside the fence of the schoolyard and the parents must go home immediately after delivery and can not stay to chat at the fence.

The pupils of the Blauwe Lijn enter the schoolyard through the gate which is closest to the school.

The school is open from 8:00 so that the students can enter immediately.

The students stay in their own classes for lessons and stay seated as much as possible and do not walk around, There will be enough ventilation in the classes, always let the students have a cardigan or sweater with them; it could be cold without.

The students of groups 7 and 8 do not have to wear a face mask.

Walking routes have been created in the school and of course everyone continues to wash their hands a lot.

Broad school activities are not on the program yet.

HAND IN DEVICES

Fortunately, the Blue Line will be open again from Monday 8 February. This means that the Laptops / chromebooks and iPads must be returned on Monday. On Monday, the students take the device to school with the charger and the loan letter and give the device to the teacher. Ms Judith and Mr Marc will check the device.

Borrowing a laptop is a temporary solution. Pupils need a laptop to be able to do homework now and in their further school career.

You may be eligible for an arrangement for purchasing your own laptop with the municipality.

Our colleague Djemilla from MADI (who also scans the city passes) can contact you and check with you whether you are eligible for such a scheme.

You can also contact her to apply for a city pass, student allowance, sports fund, culture fund, bicycle application and other budget advice. Take your city pass with you to school so that we can provide a copy for any arrangement from the municipality. You can also contact us directly:

Djemilla Haps Client support 0638677301 Present from Tuesdays to Fridays.

Please indicate that you are a parent of the Blauwe Lijn and wish to discuss whether you are eligible to apply for a laptop.

You have personally received a submission agreement via Fiep, return this signed form together with the device and any city pass (of your child (ren).)

On Wednesday February 17, the teachers of the lower grades and preschoolers will start a pancake takeaway restaurant

All preschoolers and toddlers can pick up and order pancakes.

The parents are given a time slot in which they can visit the pancake restaurant together with their child(ren) to collect the order!

Sugar or syrup? We have everything!

From the window in group 1-2a, group 1-2c, parents can come by within their time slot.

We are looking forward to it! You as well?
