Tuesday 20 April	School photographer at school, put it in your planners!
Wednesday 21 April	School photographer at school, put it in your planners!

The Blauwe Lijn is very shocked that corona has entered our bubble and therefore we had to send two classes home. Fortunately, we have it under control at the moment, but we cannot do this alone. The agreements below are very important to keep the school open for as long as possible. Only together we can keep corona under control ..

- **If your child has a cold, cough, or fever, keep your child at home.**
Your child can go back to school if he / she is free of complaints for 2 days or has a negative test.
- **If there is an infection in the group, the whole group must stay at home for 10 days.**
The children can go back to school after 10 days if they are free of complaints, they can go to school earlier if they can hand over a negative test.
- **Do you, as a parent or other family member over 12 years of age, have corona-related complaints? Keep your child at home until you are free of complaints for 2 days or can hand over a negative test.**
- **Pupils who are at home for a longer period of time as a result of corona in the family are taught online.**
- **Corona positive within your household? Everyone must stay at home, follow the GGD guidelines.**
As a parent, you know your child best. Are you unsure whether it is a special case?
Talk about it, we are here for you!

Curious about what such a corona test looks like? Watch the video on the website of the municipality of Amsterdam:

OCCUPANCY ON THE BLAUWE LIJN FROM APRIL 16

Class division until the summer holidays	
1/2a	Judith, Daniel and Marc
1/2b	Ivone, Rachel and Edith
1/2c	Sofie, Kana and Kelly Breedveld
3a	Marlene
3b	Merle and Jeanette
4a	Josta and Dewi
4/5b	Judith en Marion
5a	Mirka and Arjan
6a	Asherinne
6/7b	Louise and Arjan
7a	Mart
8a	Sanne
8b	Sem and Lisette

At the Blauwe Lijn, some changes have taken place with regard to the class occupation.

Mr. Hidde (8b) has a new job and will no longer be working on the Blauwe Lijn from April 18, we wish him a good career. Mr. Sem and Ms. Lisette will teach group 8b together.

Ms. Gamze (4a) is going on maternity leave on April 16, Ms. Josta and Ms. Dewi will take over the class.

Mr. Arjan has chosen not to run a fixed group anymore. He will therefore be teaching group 6 / 7b on Wednesdays and Fridays for group 5a. In addition, he does support tasks with students in small groups.

Ms. Sinead (1 / 2c) is going on maternity leave as of April 20, Ms. Kelly will support Ms. Kana and Ms. Sofie.

In group 1 / 2b, Ms. Edith, as an experienced teacher, will support the class next to Ms. Ivone and Ms. Rachel.

BALANCE IN CLASSROOM, LIFE LESSONS

"Ms., I get angry so quickly, what can I do to feel calmer?"

This is one of the many questions I often get from children when I teach my Balance in the Classroom lessons.

Children learn skills to deal with stress and discomfort, they learn how to express an emotion, and through breathing exercises they can always feel calmer.

The consequences of stress on the health and wellbeing of children are abundantly clear.

Burn-out complaints are also increasingly common in children.

My name is Hanke den Boer, and I have been a teacher for many years.

Since 2008 I have been teaching children's yoga and from 2015, I have been teaching Balance in the Classroom at schools and training teachers.

The life lessons come from mindfulness, yoga, breathing exercises, mutual massages, stories with insight and collaboration exercises.

I will be teaching the 8-week playful but effective course at The Blauwe Lijn from April onwards to groups 1-4.

Don't the new ABC life lessons belong in today's education?

Kind regards,

Hanke den Boer

ALL-IN-1 TRAFFIC AND TRANSPORT WEEK 4 AND 5

The theme of Transport and Traffic has been going on for almost 3 weeks now.

More information about what they are now learning about this theme can be found in this letter.

Theme: Traffic and Transport

Last week it concerned different types of roads:

Highways are built on behalf of the government. Motorways can be recognized by the letter A in the road number, such as the A7. Many highways also have an E number. Then such a road is an important European connecting road. The province takes care of the provincial roads. The letter N stands in front of the road number, such as N337. Municipalities are also building roads through cities and towns. The municipality maintains these municipal roads.

This week the children learn about the trains, tram, and metro:

After the steam trains came the diesel trains. Most trains now run on electricity. They are powered by the overhead lines. Trains run on rails made of long steel bars. Concrete sleepers lie under those bars. There are different types of passenger trains. Stop trains run for short stretches and stop at many stations. Sprinters are slow trains that accelerate and brake quickly. Express trains (intercity trains) only stop at major stations. Double deck trains have two floors. International trains run abroad. High-speed trains can travel faster than 300 kilometers per hour. A tram runs on rails through the streets of a city. You can travel by metro in Amsterdam and Rotterdam. Metro lines are mostly underground. They are learning so much, ask them yourself!

De stoomtrein

de dieseltrein

de intercity

de tram

de metro

JUF SHARON KOMT LANGS MET BABY REZA

After two cool boys, Ms. Sharon now has a princess! Thursday, April 1, Ms. Sharon will come by to introduce us to baby Reza. Isn't she gorgeous!

PARENT CONTRIBUTION

We are happy that the money from the parent contribution is pouring in! Have not paid yet? Please do this as soon as possible. This way we can continue to shape the activities for our students. Do you have a city pass? Take a picture of the front and back and send it to: a.elkhayati@deblauwelijn.nl. You can also hand in the city pass at the schoolyard.

The parent contribution is now 25 euros and can be transferred to:

**NL47 INGB 0009 2164 05 Beheer
ouderraadsgelden de Blauwe
Lijn.**

SSV AMSTERDAM

Over the past few weeks, we have received a lot of requests for the extra support. It was a busy week, but we are very happy to welcome 5 new children to SSV Amsterdam. We will do everything we can to support these children optimally and to ensure that they return to the level where they belong!

We also received a lot of questions from parents about our price list for the extra support. Because we try to help as many children as possible, we keep our prices extremely low so that everyone has an equal chance.

The prices are as followed:

- 1 on 1 tutoring (1 student with 1 tutor) 19,95 p/lesson
- 2 on 1 tutoring (2 students with 1 tutor) 12,50 p/lesson (recommended)

We hope to welcome you at SSV Amsterdam soon!
