BIKE THIEVES ALERT

Currently there are groups of young people on the road who go on a bicycle hunt. They wait for children and then take their bicycles. At school and around the playground we are outside with several colleagues and try to be very alert to prevent such incidents under our supervision. Do not give your child a bicycle if not necessary. If your child does come to school by bike, make sure he / she goes home on time. Avoid secluded alleys and cycle on the main street as much as possible.

We have discussed this with the team and will be extra vigilant about it.

We are in consultation with the municipality to get youth workers around the school who will supervise from 14.15 to 14.45.

Do you see anything suspicious? Let us know!

KICK-OFF WITH EDWIN OF THE SAR 08-03-2020

The Edwin van der Sar Foundation, together with ANWB Streetwise, started the bicycle helmet project last year. Through the lessons, all children from groups 1 to 8 receive traffic education lessons, in order to get on the road safely. Last December, the Foundation received a donation from the ABA (the Ajax Business Associates), with the aim of providing children / students in the Amsterdam area with free ANWB Streetwise lessons and providing free bicycle helmets for children in groups 3 and 4. parts to give them a handle to cycle safely to school.

Thursday September 3 there will be a kick off in the schoolyard with Edwin van de Sar.

We would like to urge you all to continue to observe the corona measures.

It is not allowed to enter the schoolyard and keep a distance of 1.5 meters.

The Kick off will take place from 08.30 to 09.15. Only groups 3a, 3b and 4a are present and it is nice when the students come to school by bike!

The other groups are offered other lessons:

Group 1 and 2: Key key

Two subjects are central for these groups: recognizing traffic noise and practicing crossing the road. In addition, children learn how important it is to use a car seat and car seat belt.

Group 3 and 4: Look and click

What can children do themselves to increase their safety in traffic? At Blik en Klik, the emphasis is placed on active road safety, safe crossing and the need to use seat belts. Wearing a bicycle helmet is a regular part. The children all receive their own bicycle helmet and come to school by bicycle.

Group 5 and 6: Hello car

This section is about the braking distance of a car and the influence of reaction time on the braking distance.

Children take place in the passenger seat of an electric ANWB lesson car and are allowed to brake themselves. The car is electric to make the children aware that you cannot rely on the traffic just by hearing.

Group 7 and 8: Pedaling skills

For these groups, bicycle control and hazard perception by means of a bicycle trail is important, because children almost go to secondary education. In pedaling, class attention is paid to influencing behavior.

LEARNING LABS AND BROAD SCHOOL ACTIVITIES

The letters for the community school activities and learning labs have already been sent out. Fill in the registration form and send it along with your child.

The broad school activities and learning labs will start from 07 September.

The learning labs vocabulary levels 1, 2, 3 and NT2 are on Tuesdays and Thursdays from 2.30 pm to 3.30 pm.

Leerlab tables are every week on Wednesdays from 2.30 pm to 3.30 pm.

Topuur lego challenge is on Friday from 2.30 pm to 3.30 pm.

Note: If you have not received a confirmation letter, your child will not participate. The registration form is not yet a registration!

Grade 4 cannot participate in Topuur Lego challenge due to swimming lessons. They will receive a separate top hour.

You will receive an invitation for this during the week.

You can also register your child online for the broad school activities, see:
